### DEDICATION

This work is, humbly and with all sense of true love and appreciation, dedicated to Late Professor Abdullahi Muhammad, one of the first Librarian and Professor of Library Science in the Northern Nigerian. Professor Abdullah was no doubt an embodiment of honesty, trustworthiness, generosity and simplicity. May his gentle soul rest in perfect peace. Amen.

### FOREWARD

Librarians are known to be a set of modest professionals usually behind the scene of all the intellectual activities around the entire world. Being armed with Information as their main ware and active commodity, Librarians are dam right one of the most powerful professionals on earth.

Writing as we know it in the ancient world history was sacred and could only be touched and managed by people of who were of royal blood. These were the kings, princes and princesses and their descendants. Yet Librarians are calm and humble. They do not want to be seen and heard but prefer to push others to top. It is no wonder, therefore that biographies and directories of Librarians spelling out who they are and their comprehensive profiles are not common on our shelves.

It is therefore gratifying and a great joy for me to see this type of project initiated and successfully consummated by the Kaduna State Chapter of the Nigerian Library Association. The profile of Librarians and information workers in Kaduna State of Nigeria is a welcome enterprise and a commendable endeavour which other chapters of the Nigerian Library Association should emulate.

Having been around for 42 years, the Nigerian Library Association is certainly not a baby any more. A profile of Librarians like this one will unfold the characteristics, qualities, poise, vitality and credentials of the people called Librarians and the dynamism of their profession. It is amazing to see from this book how much time has changed and how enormous the strides Libraries, Librarians and Information workers have also taken in Nigeria over these years. It is simply amazingly wonderful.

In saluting the efforts of Kaduna State Chapter under its able Chairman, Dr. Umar Ibrahim, the compiler of this monumental work, I cannot but challenge all other chapters of the Nigerian Library Association to embark on a similar project in their states and unfold the modest qualities and character of the professionals called Librarians and Information Scientist in Nigeria. While the Librarians' Registration Council of Nigeria (LRCN) is preparing a comprehensive database of its members, the profile of Librarians and Information workers will certainly compliment the LRCN efforts as additional ready reference materials.

Finally, I wish to commend Kaduna State Chapter of the NLA and Dr. Umar Ibrahim for this beautiful reference material and for setting the pace for others to follow. I recommend this extended directory and Who's Who in the Kaduna State Chapter of the Nigerian Library Association to all as a necessary reference material for all Libraries and Information Centers. Kudos, Nigerian Library Association, Kaduna State Chapter and more grease to our great and noble professional association, the Nigerian Library Association.

Thank you.  
James O. Daniel, Ph.D; MALS, Mich. U.S.A.; BLS (ABU, Nigeria)

President, Nigerian Library Association (NLA)

President, West African Library Association (WALA), and Chairman, Librarians' Registration Council of Nigeria (LRCN) 9th November 2004

There is no doubt to the fact that project of this magnitude could not have been successful without the support and assistance of many people. I am especially grateful to the entire Executives of Nigerian Library Association (NLA) Kaduna state chapter for accepting, supporting and mandating the Association to publish the work. I am particularly grateful to Dr. Zakari Muhammad, the immediate past Chairman, for the keen interest and encouragement given to the work; and also for the time he had spared to go through the manuscript for necessary correction.

I cannot easily forget the encouragement received from my colleague and personal friend Dr. Abubakar Tijjani. I am also indebted to my able Vice-Chairman, Mr. S. I. Bello, our able Secretary, Deacon Emmanuel Ayeni and NLA Kaduna state chapter's first lady Mrs. Hannatu M. Daudu.

To the rest of NLA Exco: Dr. K. A. Sanusi, Salimatu Aliyu, Aliyu Ibrahim Dogara, Late Mrs. Tammah A. Ali, Lawal Buhari Mrs. Esther Ibrahim, I say thank you very much for all your support and interest in this work.

I am most grateful to my Wives: Shema'u Abdullahi Aliyu for her patience and support; Maryam Muhammad Barau for her interest and financial contribution. And to all my Children for their love and understanding.

Finally, I will like to thank and register my appreciation to the entire Librarians and Information workers in Kaduna state for the support and cooperation you are giving the Association.

This edition of portrait on Librarians and Information workers in Kaduna state represent the first effort to compile comprehensive biographical Information on such personalities whose primary duties are among other things to collect, organize and disseminate Information on individual and collective biographies. It is a kind of 'Physician heals thy self'.

Indeed!! The effect of biographical Information on individual aspirations, personal development and life-long achievement, especially children and young Adult cannot be quantified. It is a fact that the lives of many personalities who have changed the cause of history in the World was modeled around other great people whom they read about.

This collective biography is therefore intended to stimulate and motivate the general public, especially those interested in the Library and Information profession, Students of Library and Information Science and fresh-on-the job Librarians. So too will those Librarians and Information workers who are anxious to improve what they do and how they do it, to accomplish what previously might have been thought 'impossible' or, simply, to stay ahead of the rest.

It is expected that the varied experience, achievements, systematic development, creativities, etc. Of individuals as contain in this biography would produce the desire stimuli and motivations.

The biography is therefore envisaged as a complete, comprehensive and standard ready reference source of current information about Librarians and Information workers in Kaduna state. It is intended to be reviewed periodically so as to maintain its currency.

## INTRODUCTION

Looking at the history and development of Libraries in Nigeria, there is no doubt to the fact that Libraries and Librarians in Nigeria have come of age. During the just concluded 40<sup>th</sup> anniversary celebration of Nigerian Library Association formation at both National and State levels, the journey of Librarianship to the present state was reviewed. Although, looking at the global changes happening in all sphere of life, especially in the area of information work, the Association seems to be satisfied with the journey so far. From few Reading rooms and makeshift Libraries in the 1960s to modern and functional Libraries and Information centers in all the sector of the society- Public, school, academic and private organizations. Similarly, the profession grew from few Librarians with ALA and Diploma certificates to vast professional Librarians with Masters and PhDs, and an array of Diploma holders and principal officers. It is not surprising then, as observed by Okegbola (2002:7) that because of the growth of Libraries and Librarians, and the diversification of Librarianship into many specialties, the NLA of today is made up of no less than eleven special interest sectors. These include Academic and Research Libraries (ARL), Association of News media Librarians of Nigeria (ANLON), Association of Women Librarians in Nigeria (AWLIN), Information Technology (IT), and Association of Libraries for Visually Handicapped (ALVH), e.t.c.

Kaduna State, as the hub of the North in library and information services is indeed blessed with many Educational, Research, Military Institutions, public and private organizations. It is evidently clear that Libraries and information centers have firmly taken root in these places. In a survey conducted by Ibrahim (2003:3), it was discovered that the state has nothing less than seventy five (75) Libraries spread over the state. This figure does not however include School Libraries and Libraries and Information centers in private organizations. In the same vain the number of Librarians and Information workers has in variably increased many folds.

Part of the cherished work of librarians and Information workers is the acquisition, systematic organizations and dissemination of information from

wide range of library and information resources. Among these library and information resources are biographies; individual and collective. Today, the shelves of many libraries are filled with biographies of important personalities, and group of personalities, either bound together by a particular profession, geographical region, interest and other criteria that the makers of such biographies deem appropriate. Prominent among such collective biographies are the makers of Africa (1998), Newswatch Who's Who, National Year Book of Nigeria (2002), e.t.c

Interestingly, going through these shelves there seem to be one biography missing. This of course is undoubtedly a biography of Librarians and Information workers, especially as it relates to Librarians and Information workers in Nigeria. The librarians and Information workers seem to have forgotten about themselves; busy providing information about others but not about themselves. Although individual efforts have been made to compile a comprehensive biography of Librarians and Information workers in Nigeria, one is yet to see the light of the day.

Therefore, the desire to see to the compilation of comprehensive biography of Librarians and Information workers in Nigeria necessitates the compilation of this biography, with specific focus on Librarians and Information workers in Kaduna State. After all it is said, "The Ocean is filled with the drop of rain water".

The significance of compiling this collective biography lies in the fact that for effective national and professional development to take place, the country and indeed the Nigerian Library Association (NLA) in particular need to proactively plan and implement meaningful decisions, especially with the Library registration council edict and the subsequent inauguration of the council. Proactive plans and decisions, as well as successful implementation of such cannot be possible without adequate and reliable data and information. Therefore the wealth of data and information presents in this biography could be used for various planning and decisions that would bring quick and meaningful development within the profession.

The data and information here contained is equally expected to serve as primary sources of data, especially for students and Librarians, conducting research in the area of Librarianship and information work.

The analysis, discussions and interpretations of bio-entries presented at the end of the work was specifically carried out in order to provide insight into the various characteristics of Librarians and information worker, and by extension, the nature of Library and Information Work.

From the analysis, discussions and interpretations of bio-entries, it was concluded that Library and Information work is a dynamic profession consisting of highly qualified and well experienced Librarians and Information workers. That the Librarians and Information workers are social people happily married and having fairly moderate family size. However, the profession is gender bias.

The biography is divided into three sections; section one discusses the introduction in which the need and importance of the biography was highlighted. Section two provides the individual biographical entries arranged alphabetically by the first name of Librarians and Information workers. Finally, section three presents, analyses, discusses and interprets the bio-entries

### SECTION 3

#### ANALYSIS OF THE BIO-ENTRIES

This Section deals with the presentation, analysis and interpretation of data derived from the bio-entries presented above. Without doubt, the analysis provides profound insight into the various characteristics of Librarians and Information workers, and by extension, the nature of Library and Information work.

It is remarkable therefore, to note that a wealth of detail with regards to the features of Librarians and Information workers exist within the bio-entries. Some of the most important and interesting features analyzed here include:

- 3.1 Gender
- 3.2 Qualification
- 3.3 Rank
- 3.4 Working Experience
- 3.5 Productivity
- 3.6 Age
- 3.7 Socio-cultural characteristics

Generally, only descriptive statistics, such as percentages distribution, tables, bar charts, etc, was used for analyzing and discussing the finding of these bio-entries

#### 3.1 GENDER

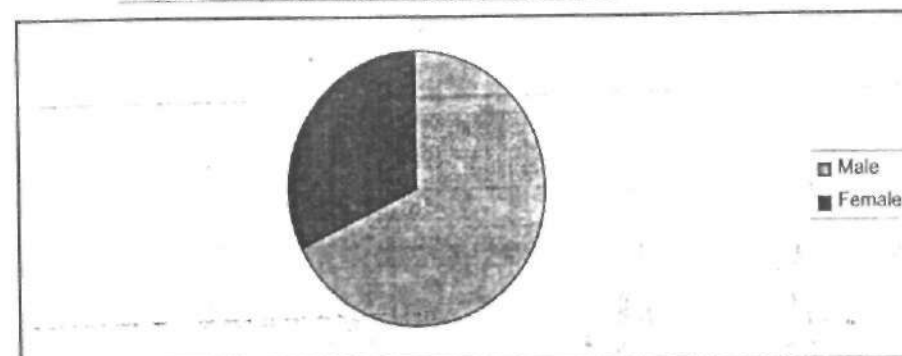

An analysis of the bio-entries indicates certain characteristics, most immediately, the profession, as clearly indicated in table 3.1 and Figure 3.1 below, is overwhelmingly male (138 57.65%). The table shows that, female 66 (32.35%) only form 1/3 of the total population of the professionals.

TABLE 3.1: DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKER

#### BY GENDER

S/N	GENDER	DISTIBUTION	%
1	Male	138	67.65
2	Female	66	32.35
3	TOTAL	204	100.00

FIGURE 3.1 PIE CHART SHOWING THE DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS BY GENDER

The above finding is surprising because according to Tamuno, Ikem and Tella (1997.iv) there is a general assumption that the Library profession, like the Teaching profession is a predominantly female one. The present exercise however does not bear out this assumption, at least as far as Librarians and Information workers in Kaduna State are concerned.

#### 3.2 QUALIFICATION

Qualification was another characteristic that this analysis looked at. It is therefore remarkable to note that unlike before when the profession was dominated by more of Diploma holders, the reverse is the case in this new millennium. Table 3.2 below indicates that Degree holders now hold a majority 95 (46.57%), this group form almost half of the Information workers. It is understandable that those with PhD constitute only 5 (2.45%)

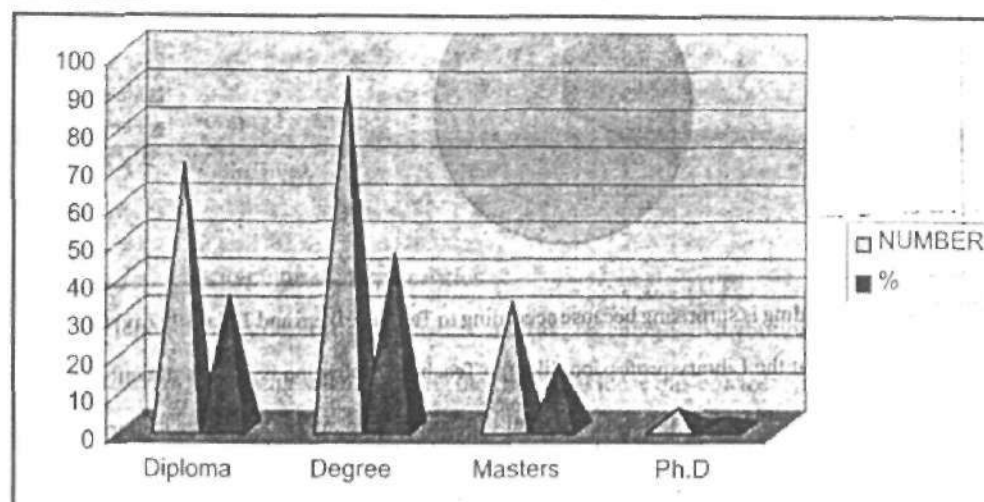

TABLE 3.2: **DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS ACCORDING TO THEIR QUALIFICATION**

	TOTAL	204	100.00

FIGURE 3.2 **GRAPH SHOWING THE DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS ACCORDING TO THEIR QUALIFICATION**

### 3.3 RANK

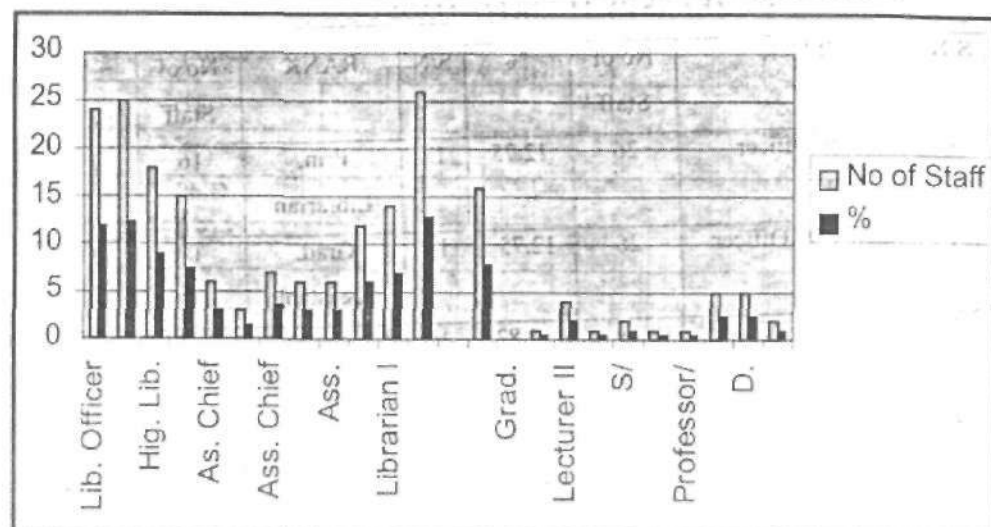

Librarians and Information workers work fastidiously to perform their assigned job so as to earn promotion and to move to higher positions and acquire new ranks. Table 3.3 below shows that the profession is dominated by Senior Librarian 27 (13.24%) cadre; this was followed by Senior Library Officer 26 (12.75%) and Library Officer 26 (12.75%) cadres. Collectively, the three levels form the middle manpower.

### 3.4 WORKING EXPERIENCE

On the job experience is considered to be a major factor in the determination of Performance and those factors that influence it. Thus in terms of experience, table 3.4 below shows that the profession is dominated by highly experience Librarians and Information workers. More than half 110 (54.73%) of members of the profession have spent 21 years and above on the job. Specifically, 67 (33.33%) have spent 26 years and above. On the other hand, only 22 (10.95%) spend 10 years on the job

7	TOTAL	204	100.00

FIGURE 3.4 **GRAPH SHOWING DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS BY THEIR YEARS OF SERVICE**

### 3.5 PRODUCTIVITY

Productivity is analyzed and discussed here within the context of publication output, in other words, the intellectual contribution of Librarians and Information workers in terms of the number of books, book review, conference/seminar and journal article they have published.

It is therefore with dismay to note the dismal number of publication by Librarians and Information workers. It is inconceivable to observe that out of the 204 bio-entries analysed, Librarians and Information workers were only able to publish a total of 11 books and 3 book review.

TABLE 3.5: **DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS BY THEIR PRODUCTIVITY**

S/N	NUMBER OF BOOK	NUMBER	NUMBER OF BOOK REVIEW	NUMBER
1	1-2	5	1-2	2
2	3-5	3	3-5	1
3	6 and above	3	6 and above

4	11-15	1	11-15	5
5	16 and above	3	16 and above	1
	TOTAL	35	TOTAL	36

A closer look at tables 3.5 (a) and (b) above show that only 3 Librarians and Information workers published 6 and above books, while 1 published between 3-5 book review.

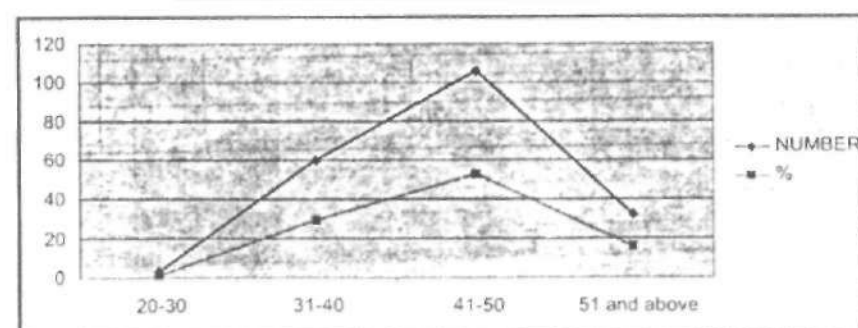

### 3.6 AGE

Age is another very important factor in job performance. Although, it is agreed that experience account a lot in job performance, it is believed that young people tend to perform more difficult tasks than the old people. It is interesting to find out, as vividly indicated in table 3.6 and figure 3.6 below that majority 106 (52.74%) of Librarians and Information workers are within the prime age of 41-50.

S/N	AGE GROUP	NUMBER	%
1	20-30	3	1.47
2	31-40	61	29.90
3	41-50	108	52.94

5	TOTAL	204	100.00

TABLE 3.6: **DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS BY AGE**

FIGURE 3.6 **GRAPH SHOWING THE DISTRIBUTION OF LIBRARIANS AND INFORMATION WORKERS BY AGE**

### 3.6 SOCIO-CULTURAL CHARACTERISTICS

Analysis and discussion was also carried out on some socio-cultural variables. Librarians and Information workers leave within the society, therefore, they are bound to be affected by certain norms and values of the society. These in turn affect their job performance. Of immediate importance among these socio-cultural values is the family life.

#### MARITAL STATUS

It is interesting to find out that Librarian and Information workers are completely social and family people. Table 3.7.2 and figure 3.7.2 below show that 192 (94.12%) are happily married people. While only 11 (5.39%) are single. In terms of number of children, table 3.7.3 reveals that majority 144 (81.36%) have a moderate family size of 1-5 children. Only 2 (1.13%) have large family size of 11 and above children. The total number in this table does not tally with the overall total of 201 because 24 (11.94%) Librarians and Information workers indicated either being single, therefore no children, or married but yet to have children.

Table 3.7.1 above shows that Librarians and Information workers in Kaduna state come from various states of the Federation. However, a further analysis of the bio-entries reveals that most of them are working in Federal institutions present in the state, as well as private organizations. It is however surprising to note that half of these states that do not have any of their indigene present in the state are from the north. It is expected that since Kaduna is centrally located in the north, at least all the states in the north would have a fairly presentation.

### 3.8 EPILOQUE

From the above analysis, discussions and interpretations of bio-entries, it could be concluded that Library and Information work is a dynamic profession consisting of highly qualified and well experienced Librarians and Information workers. That the Librarians and Information workers are social people happily married and having fairly moderate family size. However, the profession is gender bias.
